

Composites 360°: Training to shape future Composite Experts

ATIRA proudly announces an intensive 4-day training program in collaboration with CECA – Composites Excellence Center of Asia, designed to equip engineers, QA professionals, researchers and students with end-to-end knowledge on composite materials, processes and testing.

Training Highlights

- ◆ Hands-on sessions with vacuum infusion, hand layup, pultrusion and compression molding
- ◆ Live demos, tooling design and QA practices
- ◆ Real-world case studies from Composites
- ◆ Exposure to global testing standards (ASTM, IS, AWWA)
- ◆ Participation certificate upon completion

Program Details:

 21st–24th July 2025

 ATIRA, Ahmedabad

 Fee: ₹25,000 + GST

Whether you are a budding material scientist or an industry professional, this is your chance to build practical expertise and stay ahead in the growing field of advanced composites.
